"IN THE LIGHT OF THE SO-CALLED "NEW DECISION OF AMNESTY"

-----

Oman is not a feud and its people slaves

-----

The slogan of "God forgive the past" raised by the puppet Qaboos, since the begining of his reign, has constituted the main part of the plan designed by the British for the elimination of the Omani revolution. The plan for which implementation, the British officers took part in the Palace coup in July 1970, that as a result Saeed Bin Taymour was ousted and replaced by his son Qaboos, defining thus a new aspect in the American and British policy.

Since then the slogan of "God forgive the past" is being rehewed not every year, but every six months and the goal pursued is still "to dry the sea around the fish, and let the fish die" as the puppet Qaboos declares. That means to keep the Omani peoples away of the revolution, and afterwards to eliminate it.

The continuation and renewal of such a slogan prove that "the sea did not dry around the fish" and that means the fish did not and will not die".

The rulers of Muscat have become well aware of this fact, despite their disinformation and attempt to hide it behind a facade of falisfication waged against the revolution.

However, the so-called "declaration of amnesty" launched by the puppet Qaboos regime early this month, is no more that one of their continued attempts to strike and eliminate the revolution.

On the other hand, the new as the old declarations constitute a new element for condemning the repressive, autocratic and fascist Qaboos regime, which considers the homeland as its feud and the people masses as slaves and therefore considers he alone has the right to expell this or prevent that citizen of entering his homeland.

Isn't this the top of autocracy and domination ?  
Isn't this slavery at the end of the twentieth Century ?  
Why does it depend not on the Omani citizen alone to take the decision of leaving his homeland and returning back whenever he likes ? Isn't this his right ?

We could affirm that any Omani citizen, whatever his political belonging, do not prefer exile and his most wish is to live in his homeland.. This is a fact. But when life in the homeland is coupled with slavery and submission, then life in exile becomes a necessity.

Therefore, the best circumstance which would modivates every Omani citizen to choice the way of return and live in his homeland is freedom and democracy, to feel that he is free in his homeland, where he is capable to experess his opinions and that he takes part in the determination of the affairs and destiny of his homeland without any foreign interference and in a homeland without foreign bases and forces.

In this atmosphere only, every citizen exiled will return home without expecting for the issue of "Amnesty" because there will not a reason for it. For those who think that the freedom of the homeland and the citizen is tied with a resolution to be issued by them, then there will be no place for them in this homeland.

The Muscat rulers should know that Oman were not and will not be their feud and the Omani people was not and will not be their slaves. the Militants of the Peoples Front for the Liberation of Oman, are not "the Sultan slaves" so that Qaboos would deal with their lives however he wishes.

Finally the desicion of when and how these militants will return back to their homeland, depends on and will be taken by them.

"SECRETARY GENERAL GREET'S FIDEL CASTRO"

=====

Dear Fidel Castro,  
First Secretary of the Central Committee  
of the Party, and Presdident of the Council of  
State and the Council of Ministers,  
Havana.

In my name and in the name of the Executive Committee of the CC of the PFLO and in the name of all the militants of the Front and people masses, it pleases me to extend to you personally and to the Comrades in the Politburo and CC of the Cuban Communist Party and through you to the friendly Cuban People, our warmest comradely and true greetings and express solidarity on the occasion of the 24th anniversary of the victory of the revolution in your country.

On this occasion we feel pleased on the Anniversary of the great victory that represents a great transformation in the history of the militant Cuban people and all Latin America peoples. It is a prominent and great victory for all the international revolutionary forces and militant peoples for the cause of liberation, social progress and peace.

During the previous 24 years of your Revolution many great victories and accomplishments have been achieved by the Cuban people under Your leadership on the political, economic, cultural and social spheres. You have been able with your militant people gathered around their firm leadership to foil all plots and machinations waged by the US imperialists and their puppets.

Every new year, your revolution and progressive country becomes more stronger than in the previous year.

It is a pride for your people to celebrate these great accomplishments. We are also proud and all the international revolutionary forces are proud. The name of the Socialist Cuba today is planted in the hearts of all peoples loving peace, freedom, independence and progress due to the sound policy followed firmly by you on the national and international fields.

We reaffirm our solidarity with you in your revolutionary and just struggle against the string of imperialist and reactionary plots and machinations.

We are fully confident that you will achieve further accomplishments for your people in future and you will be able to foil all new plots being waged against you as you have foiled the old plots. The Cuban Revolution will continue its triumphant progress forward.

Glory to the Socialist Republic of Cuba.

Victory to the Struggle of Latin America,

Victory to the International Revolutionary Movement and the international struggle for the cause of freedom, independence, social progress and peace issues.

Abdul Aziz Al-Qadhi,  
CC Secretary General of the PFLO.

"SOLIDARITY CABLE"

Comrade Militant/Abdul Aziz Al-Qadhi - Secretary General of  
the People's Front for the Liberation of Oman Esq.  
Revolutionary greetings,

We, the Arab youth and students Organisation in the Socialist Libyan Arab Jamahiriyah have met during the period 11th-13th/12/1982, under the slogan "the role of the Arab youth and students in the confrontation against the imperialist and zionist challenges and the Arab reaction and for the liberation of the Arab occupied lands and recovery of the complete rights of the Palestinean Arab peoples and the expell of the zionist invaders out of Lebanon".

The participants have discussed the role of the youths and students towards the machinations and plottings being woven by the imperialist circles against the Arab nation and its national and democratic forces from the Ocean to the Gulf.

Comrade Militant,

With great concern and responsibility, we, youths and students follow the challenges, conspiracies and plottings being stepped up by the imperialism in the Gulf region and in Oman. As well as the presence of foreign forces and bases on your Omani lands and the facilities offered by the puppet regime of Muscat to the American Imperialism, ~~the~~ taking place of the last manoeuvres on the Omani lands jointly carried out by America and the puppet regime of Oman. This in fact represent a threat to the security and safety of the peoples of the region and the Omani revolution under the leadership of the PFLO, pioneer of your struggle.

In this emergency meeting of the Central Council of the Arab youth and students, we express our most deploration on this action and strongly condemn all imperialist presence and forces and bases in your country and the facilities being offered by the puppet regime under Qaboos, to his British and American Masters. We express our firm and principled attitude and support to your attitude and role in the national struggle being waged by your militant people since 1965 under the leadership of their pioneer the People's Front for the Liberation of Oman, in their struggle for freedom, national independence and national sovereignty and for a shining and prosperous future.

Long Live the struggle. Your Glorious Revolution will win.

Comrade, accept our comradely greetings.

Emergency Central Council  
of the Arab Youth and Students

Tripoli 11-13/12/1982.

The Executive Committee of the Central Committee of the People's front for the Liberation of Oman received a reply cable of thanks from Comrade Jose Eduardo dos Santos , Chairman of the Workers Party MPLA and President of the Peoples Republic of Angola. The cable reads;

Jose Eduardo Dos Santos  
Chairman of the Workers Party MPLA  
and President of the Peoples Republic  
of A N G O L A.

MEMBERSHIP OF THE NATIONAL COMMITTEE OF THE OMANI WORKERS

Message of Solidarity from the Arab Youth and Students Council,  
to the Peoples Front for the Liberation of Oman.

A delegation of the Omani Youth Organisation under the chairmanship of the i/c Internal relations Culture and Information, took part in the emergency meeting of the Arab youth and Students held in the Socialist Peoples Libyan Arab Jamahiriyah from 11-13th December 1982.

The General Secretary of the Arab youth and the Executive Committee of the Arab Students have called for this meeting, which was attended by all members, the Youth and Students Organisation delegations of the International Democratic Youth Union and the International Students Union.

The agenda included "the role of the Arab youth and Students in the confrontation of the international zionism and Israeli invasion of Lebanon, the retreat of the Palestinian Revolution Forces and the striking of the Lebanese National Movement.

The meeting sent a message of solidarity to the Steadfastness and Confrontation States, and the Arab National Liberation Movements among which the People's Front for the Liberation of Oman.

=====

LOCAL NEWS:

=====

RADIO MUSCAT AND THE PSYCHOLOGICAL WAR.

Analyse on the last campaign waged by the mass information apparatus of the regime of Muscat:

On Jan 23rd, a state of extreme emergency was declared in the Sultanate of Oman. The reasons for which such measures have been undertaken, surely the first of the kind in the history of Oman, was the fall on earth of the remains of the Soviet Satellite, Cosmos 1402.

Pretending the objectivity of the information, the fact was extremely exaggerated, deformed and exploited by the mass information of the regime of Muscat dictated by a well specified goal.

No doubt that this campaign was guided especially by political motives according to the well-known scenario usually produced in Washington which clearly appeared in the method of terrorizing the citizens used by Radio Muscat in a typical form of psychological warfare always practiced by the imperialist propaganda against the Socialist countries. It is not then a surprise that the Qaboos regime has resorted to the methods of its masters under their instructions. According to a well prepared mission, acting on the feelings of the people and influencing their emotion, the main part

of the Radio Muscat broadcast was devoted to the instructions and measures to "avoid a nuclear catastrophe" creating thus an impression of "Soviet aggressive intentions, presenting the Cosmos 1402 not as a Satellite designed for scientific purposes but as a nuclear weapon that would at any time annihilate the Sultanate. In other words, the Qaboos propaganda under the supervision of Washington which has a real interest in such campaigns only repeated the well known claims " of Soviet threats on the Gulf region".

In fact this last campaign on an "imminent nuclear catastrophe of a Soviet Space-ship" and other claims are all only different terms that cover one and same thing: the hysteria on the "Soviet invasion" on the Gulf oil region, a preferred claim of the reactionary forces in our region in general, for the great satisfaction of Washington. The proof is the joining of all their mass information apparatus to this campaign using the same arguments, the same method of terrorizing the population with a "state of extreme emergency", for instance in Saudi Arabia and the Sultanate of Oman, because they all pursue common political tasks, and common aim in waging this campaign.

For the Qaboos regime such campaign gives an opportunity to cover the REAL danger presented by the REAL presence of the American military bases in our country, on the other hand it is a covered request for more sophisticated military equipment. A modern powerful radar "to detect space ship" for example ?.

For the imperialists forces, this huge campaign is a tentative to destroy the detente process and the little but positive achievements reached on this field up to now, as the USA look at at any pretext to delay and to impede the talks on the limitation of nuclear weapons.

Another aspect of this campaign waged by the Qaboos regime propaganda apparatus is its tentative to create confusions to our people on the very concept between the use of the outer-space for military or peaceful purposes as most of the accent in this campaign was put on the "nuclear threats" supposedly represented by the Cosmos 1402.

This clearly show a tentative to minimize the US nuclear arsenal that further increases dangerously and deployment of their nuclear weapons not only in various bases in the world but also in the future to be extended to the outer space according to the programme. For instance the US "space shuttle, Columbia is designed for this purpose.

This last campaign has served only the NATO and its allies interests. Nobody ignore that all the "great sensations" and huge campaigns such as "human rights", "crisis in Poland" in the Western Press. T.V! Radio come directly from the NATO press Dep't. And now we witness the start of a new type of propaganda based on "sensations" in the information apparatus of the reactionary regimes of the Gulf.

Washington can now be satisfied by the tasks shouldered by Qaboos and the other imperialist puppets in our region and for their "well done" mission in this large scale imperialist campaign. Soon, or later Qaboos will be rewarded for his service to his masters.

Instead of expecting a "nuclear catastrophe" from the space, the Qaboos regime would better pay attention to Thamrit and Masirah. There lies the real threat.

BRIGHT STAR OR GIANT TIGER..NUMEROUS NAMES BUT THE SAME GOAL  
=====

Since the June 4, 1980 agreement between the puppet regime of Muscat and the USA, the Sultanate lands have turned into a field of manoeuvres which periodically have been carried out by the US military forces during the previous two years: the "Bright Star" at the end of 1981 and the "Giant Tiger" at the end of 1982.

Unlike the previous manoeuvres, in which only the American military units took part, the recent manoeuvre, "Giant Tiger" in addition to the American forces, has gathered the Sultanate's and Saudi military units. In this manoeuvre the American strategic B-52 aircraft and the Awacs radar aircrafts have been used in addition to a number of American war ships that have landed on the

Omani territory more than 1000 American soldiers to hold an exercise simulating the occupation of one of the Omani military airports similar to the ones in the other Gulf States and Arabian Peninsula.

It is not strange that the US media has announced the taking part of the manoeuvre while the American and Sultanate parts had agreed upon not to be announced. The USA through this act, intended to demonstrate to the states of the region that the wealths and the regimes of the regions, followers of the American policy are under their domination.

The Qaboos regime is an insignificant piece in the American administration machinery, which arrogance only increases. From now on the direction is in the hands of the American administration, especially as the other pieces of its machinery, the Arab reactionary regimes, are turned out by the officials in the White House.

The American officials have announced years ago that the USA consider the Gulf and the Peninsula region within their defence strategy. Consequently the military facilities and bases granted to the USA in the Gulf region, above all the advanced military bases in the Sultanate of Oman, represent in other words, the main pillars for keeping the regimes of the region within the American circle.

The American imperialism has given several strikes to the Arab regimes of the Arab region of which the most important and strong is defined by the extension of its unlimited support to Israel, its rejection to meet the delegates of the PLO within the delegation of the Arab League formed by the Fez summit. Its recent five days manoeuvres known as "Giant Tiger" on the Omani lands are the extreme challenges to the aspirations of the citizens and national forces in the Arabian Gulf and Peninsula region. This has occurred following several statements raised by the Gulf officials that the safety of the region depend on the States of the region and that the foreign military presence do not but would lead to introduce the region in the world tension.

No wonder that the USA have rejected several times the peace proposals by the Soviet Union either on the European Continent or on the Gulf and Indian Ocean sphere. On contrary, the USA began to arm various regions of the world, impeding thus what would prevent the people of the Globe from wars and catastrophes. How could it not be while the USA escalate tensions in more than a region with the view to test destructive weapons and to be ensure on their capability of murdering and sabotage. This has occurred for instance in Lebanon during the past few months and no doubt that the imperialists envisage to create similar situation in other parts of the Arab region. The example is the Iraq-Iran war effect where the Americans seek to weaken the peoples of the region and its regimes with the view of looting the wealths of the region according to their strategic plans.

Frightening the peoples of the Gulf and Peninsula with the "Communist danger" is no more than a propaganda to hide their conspiracy plans with the view to impose their domination and hegemony on the rich oil countries.

Muscat regime which has tied its destiny with the wheel of the imperialist policy through slavery agreements, along with its imperialist masters will remain in the eyes of the Omani people masses the main enemies of their aspirations towards freedom, democracy and peace as long as the Omani lands will remain a platform for the imperialist Rapid Deployment Forces and an advanced base for training the anti-freedom and anti-progress mercenaries.

THE GULF AND PENINSULA

=====

=====

HANDS OFF NATIONAL AND PROGRESSIVE FORCES IN SAUDI ARABIA

=====

APEAL FROM THE COMMUNIST AND WORKERS PARTIES  
IN THE ARB COUNTRIES.

=====

An unprecedented campaign of terrorism have been ascalated in Saudi Arabia during the previous months. The security authorities continue to detain tens of militants who struggle for freedom, national sovereignty and for getting the country out of the American imperialism.

During the recent period, this campaign took dangerous shape affecting in various regions of the country, workers, students, journalists, intellectuals, artists, engineers, employees including women.

The lives of the detainees are in danger.

News reached from behind the irons create further anxiety. The detained peoples are living in very hard conditions and are subject to unhuman torture to force them to give informations on their activities.

The urgent actions for saving their lives is today's mission and as fast as we act, best results will be achieved to stop the hands of these murderers.

To not let the Saudi authorities commit their crimes on the people and their democratic forces, is the duty of every progressive and democratic Arab people.

Saudi Arabia which is linked with the imperialists through strategic agreement and which rise the flag of security coordination between the Gulf States through the Gulf Cooperation Council has provided an example of the kind of coordination it intends to joint to its plans following the zionist invasion of Lebanon with the view of rearranging the Arab situation according to the Americans and zionist wish to realize the goals of this invasion.

Our Parties expressing their indignation on this campaign escalated by the backward, reactionary and hostile to progress Saudi authorities, appeal to all progressive and democratic forces and to all social, lawyers and human right organisations in the Arab countries and in the world to gather all their efforts to stop this terrorist campaign in Saudi Arabia, and for the release of all political detainees, for a fair judgement in which the right of defence is provided for the detainees.

Our Parties express their solidarity with the detainees in Saudi Arabia and greet their steadfastness in the face of the murderers and express their confidence that the national movement will overcome these difficulties.

1st January 1983

Communist Workers Parties  
In the Arab Countries..

CUBAN REVOLUTION, 24 YEARS OF STRUGGLE AND TRIUMPH.  
=====

For the oppressed peoples, great events are those which mark the start of radical changes in their life, events that mark the end of oppression and commemorated by the oppressed peoples the world over as a part of their own liberation. Such a date is commemorated on Jan. 1, a date that mark the anniversary of the triumph of the Cuban Revolution, an event that radically changed the economic, political and social life of Cuba. For the first time in the history of Latin America and Carribean a country an independent economic way of development making thus for the oppressed peoples of Latin America and Carribean a new stage of struggle for their liberation from the imperialist enslavement.

The Cuban people had to cross a difficult and very hard path untill the triumph of the Revolution. But closely united, guided by ideas based on humanism, justice and liberty and ready to sacrifice for a better future, the Cuban people under the great leadership of Fidel Castro and Che Guevara, crashed the tyranny and win their freedom. The Cuban heroic history is a great source of optimism and inspiration, and the triumph of the Revolution, a valuable example of the possibilities open up to the people masses determined to free themselves of the oppression.

Tyrans and oppressors have been toppled forever from the Cuban soil. Today's Cuba is a citadel of freedom and liberty with a new generation of Internationalists. In several underdeveloped and newly independent countries, Cuban specialists help other peoples start also a new life.

This example of real internationalist missions give all the importance to the Cuban Revolution, respect and prestige not only amidst the oppressed, but also amidst the peoples newly

liberated from oppression who are faced with ideological, economic and political difficulties. "Well, since an internationalist spirit is to be defended as a principle I am convinced that being an internationalist means giving part of what you have and being willing to give it. You must be willing and prepared to give something up in order to do it.", Fidel Castro, leader of the Cuban Revolution said. This illustrate well the high spirit and humanism of today's Cuban society.

The Cuban people, after heroic struggles against poverty and injustice, have realized great achievements in the political, economic and social fields. Another long and no less hard road lies ahead, the construction of socialism. But turning the pages of the heroic history of the Cuban people, full of great events: attack on the Moncada, Granma, the triumph of the Revolution in 1959, the Playa Giron and full of great names, Jose Marti, Castro, Che Guevara along with many other glorious heroes, we are confident that the brave Cuban people, closely linked with their Communist Party determined to construct Socialism in their country despite the problems posed by the limited economic resources and improvements of the economic development will firmly continue their march. The imperialist forces, especially the US imperialism have not given up with their threats against Cuba. Knowing the value of freedom, the Cuban people have always failed all its attempts. Today the US imperialism envisages the increase of its propaganda campaign in view to demoralize the Cuban people and still maintain economic blockade against the country.

Our militant people as an integral part of the world revolutionary forces are by the side of the Cuban people. Cuba is not alone.

PEOPLE'S FRONT FOR THE LIBERATION OF OMAN.

DRAFT POLITICAL PROGRAMME OF THE P.F.L.O.

PREFACE:

The People's Front for the Liberation of Oman is a revolutionary political organisation that represents the alliance of the Omani working class peasants, fishermen, herdsman, revolutionary intellectuals and other Omani toilers. The PFLO is the weapon of this alliance for leading our people's national struggle, working class and their peasants workers, and all other toilers allies struggles till the achievement of the objectives defined in this programme.

The Front sees its struggles as a historical and natural continuation of the Omani People's Struggle and their glorious combative traditions. Therefore, it pursue the traditions of the people, reinforce their lessons, safeguard and develop them accordingly with the new circumstances.

The objectives of the Front, as clarified in this programme, serve in general the achievement of the main and honest goal: the accomplishments of the missions of the national democratic revolution in Oman through the setting up of a national independent authority hostile to the imperialism, zionism and racism and to effect the democratic transformations in the society in the interest of its wide classes and groups.

Besides the organisation of the PFLO and its struggles for the achievement of its strategic programme, the circumstances and dangers being faced by the homeland at present requires the construction of a broad class and social alliance and unification of the resistance of all the Omani people for the achievement of their main current objectives.

This task became more vital in the light of the dangers of turning "the Sultanate of Oman" to an advanced base for the NATO forces, especially for the American forces and in the light of the increase of the police-autocratic nature of the Muscat regime that bless the Camp David accords and stands by the treacherous solutions on the Arab issue, above all the Palestinean cause.

The PFLO shoulders this main vital mission for the establishment of a broad national alliance that groups political and religious organisations and forces etc. with their independent ideological structure and together to wage the struggle within a democratic and peaceful alliance relations for the achievement of the joint programme.

The Omani national liberation movement topped by the PFLO is a part and parcel of the Arab Democratic National Liberation Movement struggling for the achievement of liberation, democracy and social progress of our Arab people and achievement of their unity in a national homeland united on a peaceful progressive and democratic basis hostile to the imperialism, zionism and racism. Hence, the PFLO is struggling with all possible means along with the other Arab national democratic liberation movements for the cause of the achievement of our Arab peoples honest objectives.

The Arab National Democratic Liberation Movement among which the PFLO is also a part and parcel of the international democratic national liberation movements and of the international revolutionary forces with their three basic pillars: the countries of the Socialist community, the working class parties in the capitalist countries and the international national democratic liberation movements. The conflict is undergoing today clearly and continuously between the whole of these three groups representing a part and unique force, struggling for liberation, social progress and peace, and the colonialist, imperialist and zionist and racist forces representing the other part and unique camp hostile to the liberation issues of the peoples, their progress, stability and world peace.

The PFLO as a part of the international liberation movements struggling for the liberation and social progress issues of the peoples and for avoiding the danger of a new world war and the safeguard of peace, endeavours with all possible means to consolidate its alliance and firm solidarity and the alliance of the Arab national liberation movements in general with the international revolutionary movements, and to take an active part in the consolidation of the struggle of the world peoples for the cause of liberation, progress and democracy and for the cause of safeguarding and consolidating world peace.

## INTERNATIONAL SITUATION AND THE INTERNATIONAL REVOLUTIONARY MOVEMENT

Our world witnesses an increasing escalation of conflict between the liberation, progress, socialist and peace forces on one side and colonialist, imperialist and racist forces on the other side.

The conflict appears in various forms and during the period of contradiction between socialism and capitalism on the first stage, the passage from capitalism to socialism on the international scope as its main reason.

The triumph of the October Revolution in 1917 in Russia and the formation of the first Socialist State in the world represent the start of this new era. With the triumph of this revolution, the string of the international capitalist system was destroyed for the first time and the struggle of the peoples in the countries under colonialist and imperialist hegemony entered a new stage characterized by a rapid development of the people's liberation movement and the appearance of further uprising of the oppressed peoples and achievement of victories in their struggle on a wide international scope.

The victory over the German Nazi, the Japanese and Italian fascism in 1945 has prevented the peoples of the world from a real catastrophe, protected the first socialist state and has opened the way to the accession of the working class, to the authority in a number of countries and has set up a complete community of socialist countries and has given a new strength to the struggle of the peoples for the cause of freedom, national independence and social progress.

Through the previous four and half decades the countries of the socialist community, above all the Soviet Union, have achieved great successes and accomplishments on the economic, cultural, scientific, social and political fields.

The seventies has witnessed new victories of the struggle of the peoples under the colonialist domination and imperialist hegemony of which the most prominent, the victories of the people of Vietnam, Kampuchea, Laos, Angola, Ethiopia, Mozambique, Afghanistan, Iran and Nicaragua. Most of the newly independent States have selected the road of independent economic development, the road of Socialism.

During the same period the revolution in Cuba has achieved great successes on the road of socialist construction and further steadfastness and victories over the conspiracies, sabotage acts, economic blockade and military provocative manoeuvres organised and led by the USA.

The revolution in Democratic Yemen deeply rooted in its march, achieved new gains and defined the road of its progressive development steadfast against the imperialist and Arab reactionary plottings and machinations.

The prominent victories of the democratic national liberation movement's struggle in Asia, Africa and Latin America achieved during the previous ten years topped by the great victories of the people of Vietnam against the most fierce imperialist aggressive war and the establishment of the United Socialist Vietnam have caused strong strikes on the imperialist capitalist system.

The national liberation movement of the peoples in Asia, Africa and Latin America enjoy considerable significance in the international struggle against the imperialism, looting and exploitation and its role has been strengthened and appear as the main force of the international revolutionary movement in the international relations and in the course of the current revolutionary transformations in our present time.

The firm support extended by the socialist countries, above all the Soviet Union to the democratic national liberation movements and militants against colonialism and imperialism in Asia, Africa and Latin America and the new independent states in these continents, have played a great role in the achievement of victories and gains.

The policy of peaceful co-existence and world detente pursued by the countries of the Socialist Community provide suitable atmospheres for the growth of the national liberation struggle of the peoples and the steadfastness of the progressive regimes against the imperialist plottings and machinations.

The great victories and gains achieved by the liberation, progressive and peace forces in the international scope during the previous ten years and the crisis being faced by the countries of the imperialist camp at present, have pushed the imperialist states especially the USA to stand against the world detente policy in their relations with the socialist countries especially with the Soviet Union.

Our present time witnesses new escalation of the conflict, and a sharp tension in the international relations between the Socialist and imperialist countries. It become now obvious that the American attitude aims at pulling the world to the atmospheres of cold war, spreading tensions in several regions of the planet, threatening the socialist countries by creating military bases and pacts. Furthermore, the American attitude return to the policy of arm race, producing and deploying Neutron bomb and preparation for further military adventures, interventions and sabotage against the socialist countries, the least developped countries and against the national liberation movements struggling for independence.

The USA actively endeavours to encourage their NATO allies, China and Japan to contribute in these war efforts as well as they endeavours to acquire a number of military bases and facilities in some of the countries tied with the wheel of the international capitalist system such as: Egypt, Somalia, Oman, Kenya, Pakistan and Sudan and is increasing the expansion of the so-called "Rapid Deployment Force" in the Middle East.

Hence, in order to regain "their prestige" and leading the world, the USA stand against the consolidation and deepening the world detente policy and peaceful co-existence and against the gains achieved in this field, waging the atmospheres of cold war and tensions in the international relations in order to implement their plans that would favour their direct intervention and aggressive military adventures with the view of submitting several regions under their direct domination and hegemony.

The socialist countries, above all the Soviet Union have submitted several proposals and peaceful initiatives for solving the problems in the international situation such as halting the arm race, limitation of strategic and nuclear weapons. The most important proposals and initiatives in this sphere dealt with the European security, the relations with the USA, the Middle East issue, the Gulf security, Indian Ocean and Afghanistan.

The international imperialism despite its losses and increasing crisis continue to set up several forms of sabotage acts and aggression against the peoples and international revolutionary movements to compensate its losses and halting the current revolutionary transformations in the world.

The three international revolutionary movements topped by the countries of the socialist community constitutes a strong factor for determining the events and world transformations. With further unity and cohesion of the international revolutionary forces and with the coordination of their steps and escalation of their just struggle, the imperialist and reactionary forces endeavours will fail and our world will proceed forward.

----- TO BE CONTINUED.
